Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representative called to clarify issues that may have been misconstrued in the interview on 12/05/07. Applicant's representative explained that the drain channel is not built in the foundation as previously discussed, but is instead a separate plastic device placed on top of the foundation wall. Applicant also explained that the claim amendments would reflect the drain channel device disclosed in the specification. Accordingly, further consideration would need to be given to the amendments when filed.
